

Respiratory Therapy

RT Jobs & Opportunities

RTs are in Demand!

Jobs for RTs are abundant!

Salaries have increased!

Scholarships & hiring bonuses available!

Recent RT @ OSU graduates have been able to choose from multiple job offers with sign-on bonuses up to \$15,000; they have reported an average starting salary of \$43,000 - \$48,000 and a starting salary as high as \$56,160. Most of our recent graduates chose jobs at major medical centers and in community hospitals and children's hospitals.

See [RT @ OSU Alumni](#). Some work for home care providers, medical specialists, lung associations, colleges and universities, pharmaceutical companies, respiratory equipment manufacturers and suppliers. Alumni in leadership roles have reported salaries as high as \$90,000

Outlook Bright!

RT is Growing!

RT is a growing field, driven by the aging population and a rise in respiratory ailments and cardiopulmonary diseases. According to [The AARC News](#) and [The U.S. Bureau of Labor Statistics](#), RT is expected to add at least 37,837 new jobs between now and 2012, increasing the size of the profession by 35% and making RT one of the fastest growing occupations covered in the BLS's 2004-2005 Occupational Outlook Handbook.

[America's Career-Info-Net](#) rates respiratory therapy in the top 10 fastest growing occupations for 2000-2010 with a 35% growth rate with almost 5,000 average annual job openings.
